

## Planning to Plant

**Planting new churches and starting new congregations are both essential if we are to see our nation reached with the Gospel.**

**In these one day conferences, the Rev Dr Martin Robinson (UK) will look at the key elements involved in preparing to plant a new church or congregation. Martin will look at:-**

- Some church/congregation planting models.
- How to research your area or target group.
- How to develop a church planting vision and strategy and enthuse others about it.
- Building and training a core team.
- Ways of evangelizing your area/target group.
- How to hold onto new converts & contacts prior to starting your public meetings.

Martin's presentations will give ample opportunity for questions and discussion. The conferences will have an emphasis on the practical aspects – the "how to" - of church & congregation planting.
